

## Cloud-based Geospatial Workplace

[www.geocloud.work](http://www.geocloud.work) is a Software-As-A-Service (SaaS) worldwide cloud-based platform, which enables working with any Desktop Software through remote desktop technology (RDP) on a Pay-per-Use basis.

[www.geocloud.work](http://www.geocloud.work) offers 3<sup>rd</sup> party software from variety of vendors that covers all domains of geoinformation: **geodesy, photogrammetry, mapping, cartography, remote sensing, GIS, image processing, point cloud processing and automatic object recognition.**

**Pay-per-Use model** eliminates the need of purchasing the software licenses, annual support fees and software updates.

### GeoCloud works for you!

Geospatial Professionals	Software Vendors	Geospatial Data Providers
<ul style="list-style-type: none"> <li>• Use <b>licensed</b> preinstalled <b>up-to-date</b> geospatial software on a <b>pay-per-use</b> basis</li> <li>• <b>Start you own</b> Geospatial business with <b>no investment</b> in Software and Computers</li> <li>• <b>Cut software licenses</b>, in-house computers and IT <b>support costs</b></li> <li>• Execute <b>multiple projects</b> simultaneously</li> <li>• Change <b>processing power</b> according to you requests</li> <li>• Work from home, work from <b>anywhere, work anytime</b></li> </ul>	<ul style="list-style-type: none"> <li>• <b>Sell</b> your software <b>24/7</b> on a pay-per-use basis</li> <li>• <b>Reduce</b> marketing, pre-sale and support <b>cost</b></li> <li>• Enjoy <b>one-time installation</b> for all your customers</li> <li>• Get approach to diverse customers <b>worldwide</b></li> <li>• Prevent your software from piracy</li> <li>• Install and Test your SW by yourself in the <a href="http://www.geocloud.work">geocloud.work</a> environment</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Sell</b> your data on a pay-per-use basis</li> <li>• <b>Make</b> your data <b>available and affordable</b> for every project</li> <li>• Get approach to diverse customers <b>worldwide</b></li> </ul>

### Desktop work vs Cloud-based work
